popularizing the study of foreign languages among the population and creating the necessary conditions for their perfect mastery, coordinating the introduction of internationally recognized programs and textbooks for teaching foreign languages at all stages of education, and developing modern teaching skills among teachers ;

organization of the teaching of foreign languages in high demand based on the results of the analysis of the needs of regions, industries and educational institutions for specialists who have mastered foreign languages;

to develop methodology and recommendations for language learning suitable for all layers of the population in order to introduce a chain of continuous education on the principle of "kindergarten-school-higher education organization-enterprise" in the field of foreign language

teaching coordination;

- organizing the creation of videos, games, entertainment shows, films and other educational content for the thorough mastery of foreign languages, the formation of basic language skills;
- creating professional translation methods from the state language into foreign languages and from foreign languages into the state language and assisting in improving the qualifications of specialists in this direction;
- rating of knowledge of foreign languages among regions, sectors, state bodies and educational organizations, developing proposals for further popularization of foreign language learning.

The director of the agency and his deputies are appointed and dismissed by the decision of the Cabinet of Ministers;

The employees of the agency are equal to the employees of the central apparatus of the Ministry of Higher and Secondary Special Education in terms of wages, incentives and social protection.

The limited number of management employees of the agency is 73 people, including 31 people in the central office and 42 people in the regional representative offices of the agency.

The agency and its representatives are 34 state units of the republican scientific-practical center for the development of innovative methods of teaching foreign languages under the State University of World Languages of Uzbekistan, 39 states of the system of the Ministry of Public Education and the Ministry of Higher and Secondary Special Education. is organized at the expense of the unit.

Nowadays, the importance of learning and knowing foreign languages is increasing more and more. In order for a representative of each field to become a mature specialist, it is necessary to know at least two or three world languages in addition to his mother tongue.

Systematic measures to develop the teaching of foreign languages as a priority of education policy in our country, to fundamentally improve the quality of education in this direction, to attract qualified pedagogues to the field, and to increase the interest of the population in learning foreign languages is being implemented.

In order to improve the learning of foreign languages, systematic reforms aimed at bringing textbooks of foreign languages developed by international publishers and introducing them in general secondary schools are ongoing.

In particular, in cooperation with the Embassy of France in Uzbekistan, negotiations were held with "Hachette" and "FLE" publishers regarding French language literature, "Klett" publishing house regarding German language literature, and "MM publications" regarding English language literature. Literature "Logisch neu" from German language, "Enter the portal" from English language was selected and an agreement was reached with publishers regarding their purchase. An agreement was reached on the distribution of Korean language literature by the Korea Education Center.

In recent years, the number of young people who use the necessary conditions for learning foreign languages, created by our state, is increasing day by day. In order to identify talented young people, to increase their interest in learning foreign languages, and to encourage them, the district (city) and regional stages of the competition "The best school for teaching foreign languages" were organized and more than 35 thousand students participated. students were covered. The winners of the district (city) stage of this contest will receive money in the amount of 100 million soums for the 1st place, 75 million soums for the 2nd place, and 50 million soums for the 3rd place. being

awarded the prize is a clear example of encouraging our educated youth.

Today, a number of foreign teachers are being recruited to regional schools in order to improve the quality of education and effectively use best practices. "Seek teachers", "Schrolle", "Teach away", "ODEPC", "ISS", "World teachers", "Senior experts service" (SES) in order to attract 500 foreign specialists to secondary schools in Tashkent city and regions Negotiations were held with international recruiting companies, and commercial offers were received from them. The process of signing an agreement with the Indian organization "ODEPC" is ongoing. In cooperation with the Embassy of France in Uzbekistan, the process of selecting specialists has been launched.

Currently, the references of 551 foreign English language specialists from 22 foreign countries have been studied, and an interview process has been organized with 236 of them, preliminary offers for employment have been sent to 185 foreign English language specialists.

Knowing a foreign language has become the main condition for finding one's place in life. If you don't know at least one foreign language besides your mother tongue, you can't even think about getting a high-paying job around the world, sharing experience, and improving your knowledge.

In general, popularization of foreign language learning has become one of the priority goals of today's education system. The result of this is now evident in the sharp increase in interest in language learning among young people across the country. These efforts in the field of education solve any problems encountered in learning and teaching foreign languages, and raise the prestige of science, education and development, which can show the progress of our country on the world scale. makes a significant contribution.
